Re Proposed Australian Men's Shed Association (AMSA) Structure and Governance Changes

To Whom It May Concern

The Samford Area Men's Shed has reviewed and considered in depth the proposed AMSA constitutional changes to structure and governance mechanisms as found on the AMSA website under 'About AMSA'. It must be said that these proposed AMSA constitutional changes to structure and governance mechanisms are very detailed in every aspect.

The Executive Management Committee of the Samford Area Men's shed at the behest of the membership **supports absolutely the proposed AMSA constitutional changes to structure and governance mechanisms as proposed by the AMSA Board of Directors.**

In conclusion we would be remiss if we did not say that we have always found AMSA a pleasure to deal with when it comes to gaining advice and the resources necessary for the operation of our Men's shed.

A handwritten signature in black ink, appearing to read "John Sayer".
